Gospel Meditation

May 19, 2024
Pentecost Sunday

When I was twenty-two years of age in August of 2000, I experienced World Youth Day in Rome.

As for many of my generation, the event was life-changing for me. Surrounded by joyful, hope-filled young people from seemingly every nation and tongue, we were gathered around the Pope, sharing a common Faith and love. The Pope spoke to us of our shared family bond in the Church and invited us to give our lives in service to others. Now twenty-four years later, my life as a priest, like that of so many others from those special days, continues on that same path of love and unity — despite my many weaknesses. What makes that continuation possible?

This week's feast gives the answer: the Holy Spirit. The gift of God — His very life — the third person of the Trinity, is the Spirit who animates the entire Church and each member of it. He makes us

one-in-love in a way that utterly exceeds human capacity. For example, he makes the apostles speak with tongues of fire, and everyone hears them in his own native tongue. The Holy Spirit is the means by which Jesus establishes a new family, one that crosses all possible boundaries of time, space, and culture. The Holy Spirit never tires in enthusing us for mission.

Aren't we longing to experience the Holy Spirit in a fresh way? Today we celebrate this untiring flame, once ignited on earth and burning still. So, we humbly cry out: Come, Holy Spirit, fill the hearts of your faithful, and enkindle in us the fire of your love!

— *Father John Muir*

As high school seniors graduate and contemplate the next phase of their lives, we should remind them of their mission to serve others and preserve their faith.

A great way to engage in both of these callings is to join the Knights of Columbus.

The Knights of Columbus welcomes all Catholic men age 18 or older and has councils on or near many college campuses. It's a great way for young men to develop a network of like-minded friends quickly.

If the work of the Knights sounds interesting, see any member or find our leaders on the Parish website at:

SVdP's newest 100-bed housing facility will include an animal clinic and workforce opportunities programing. Standing at an impressive 50,000 square-feet, the new building will house three programs:

- **De Paul Manor:** a transitional housing facility, featuring 100 beds for unhoused seniors and adults living with disabilities. Formerly known as "Ozanam Manor II," De Paul Manor is modeled after Ozanam Manor, which currently provides 60 beds on SVdP's main campus and boasts a high success rate with 98% of graduated residents remaining housed and not returning to homelessness services one year after moving out.
- **Marion and Bob Auray Companion Animal Clinic:** SVdP's first standing animal clinic, which will partner with Midwestern University Animal Health Institute to provide much-needed pet services for those experiencing or at-risk of homelessness.
- **Workforce Development Program:** a training center and office space that will support SVdP transitional housing residents as they work towards stable employment

10 WAYS TO STRENGTHEN YOUR EUCHARISTIC BELIEF

PART 2

6. PRAY A HOLY HOUR

Some parishes might have an hour of Adoration once a week or once a month while others have perpetual Adoration. This is a time for prolonged prayer before the exposed Blessed Sacrament. Even if we struggle with Eucharistic belief, that time before the Blessed Sacrament opens us to God's grace. Jesus is present in the doubts that we have, wanting to reveal himself to us. Simply by being present before the monstrance and beholding the Eucharist can increase our Eucharistic belief.

7. READ JOHN

The Church's belief about the Eucharist is quite scriptural, and we have it from Jesus himself. Not only because of what he said on the night of the Last Supper, but also what he taught in the sixth chapter of John's Gospel. John 6:22-59 is Jesus' bread of life discourse.

"Whoever eats my flesh and drinks my blood has eternal life" (John 6:54). Read those words. And reread them until you believe them.

8. RECLAIM SUNDAY MASS

Maybe part of the problem has been the laxity with which we approach our Sunday obligation. So many things seem to take priority over Sunday Mass. By making Sunday a priority, we assert that this is Jesus whom we receive, that nothing — including youth athletic tournaments or professional sports — takes priority over receiving the God of the Universe. The next time you want to skip Sunday Mass, remind yourself who it is that you will not receive. Then drop everything and run to Mass.

9. LEARN ABOUT EUCHARISTIC MIRACLES

At every Mass, a miracle happens. Bread becomes Christ's body, and wine becomes his blood. We believe this happens and wine, tastes like bread and wine, but it truly is his body and blood. There have been a few times in the Church's history that the bread and wine actually have become actual flesh and blood. You can even visit the churches where these events happened. One of the most popular is in Lanciano, Italy. I'm sure if you learn about the Eucharistic miracles and even go and see them with your own eyes, it will remove all doubt and assure you of Christ's presence in the Holy Eucharist.

10. THE EUCHARIST

There are books galore about the Eucharist. Some were written by saints, and some have been written by fellow Catholics today. I always recommend that if you have a question about something, you should research that topic for yourself. One of my favorite books is Vinny Flynn's 7 Secrets of the Eucharist (MercySong/Ignatius Press, 2006).

Other books include Abbot Anscar Vonier's A Key to the Doctrine of the Eucharist (Assumption Press, 2013) and Fr. James T. O'Connor's The Hidden Manna: A Theology of the Eucharist (Ignatius Press, 1988).

By studying more about the Church's theology of the Eucharist, we will unlock its meaning and deepen our knowledge and belief in Christ's presence.

"In the humble signs of bread and wine, changed into his body and blood, Christ walks beside us as our strength and our food for the journey, and he enables us to become, for everyone, witnesses of hope." -JPII Ecclesia de Eucharista

The Truth About **Abortion** & **Women's Health**

Abortion does not save women's lives.

Abortion is the **direct and intentional** killing of a child in the womb.

Abortion is **never medically necessary**. It does not treat or solve any pregnancy-related complication.

Outlawing abortion will not affect treatment for miscarriage.

Treatment for miscarriage and abortion is not the same thing.

There is a complete moral and legal difference between losing a child through miscarriage and intentionally taking the life of a child.

In the tragic case of miscarriage, surgery may be necessary—and is an ethical treatment—to remove the remains of an unborn child who has **already died**.

While the same surgery is done to perform an abortion, abortions impose this procedure on a **living child** with the **intention** of ending his or her life.

Women can get the lifesaving treatments they need—without abortion.

In rare cases, and in the absence of better alternatives, life-threatening maternal health conditions may require interventions that **indirectly and unintentionally** lead to the death of an unborn child. **Abortion restrictions will not prevent women from receiving these treatments.**

When the lives of mother and child are in immediate danger, the goal is to fight to save both patients. **Effective treatments exist that seek to save the life of the mother and never to intentionally harm her unborn child.**

When a woman's life is at risk in pregnancy, preterm delivery may be used as a lifesaving medical intervention to preserve the life of both mother and child.

Ectopic pregnancies result when an embryo implants outside the uterus—often in the fallopian tube. Sadly, such embryos cannot survive and this condition can pose serious risks to the mother. While ectopic pregnancies sometimes resolve naturally, interventions are often necessary.

When done ethically, **treatment for an ectopic pregnancy is not abortion**. Ethical interventions include the removal of the damaged fallopian tube containing the embryo or, if embryo death has already occurred, medication can be used to resolve the ectopic pregnancy.

Bottom line: Abortion restrictions never prevent women from receiving life-saving treatment.²

CHRISTIAN SERVICE AWARD WINNER LUCIA GARCIA

Congratulations to Lucia Garcia, 8th Grade, who received the Christian Service Award from the Catholic Community Foundation at the Diocese of Phoenix. Since 1998, the mission of the Christian Service Award (CSA) Scholarship has been to acknowledge students who demonstrate exemplary Christ-centered behavior through volunteer service to their parish, school, and community. Recipients display a love and understanding of their Catholic faith and articulate a commitment to perform acts of service and live a service-focused life. They recognize their God-given gifts and provide persuasive evidence of maturity, humility, and leadership. Students awarded the scholarship receive an annual \$2,000 payment during each year of high school for a total of \$8,000. Lucia will be attending St. Mary's High School in the fall.

The STREAM event featured a buddy challenge in designing and creating a table out of recyclables to hold a certain weight while the elementary grades had to design a device to pick up a ping pong ball. For Catholic Schools Week, it was a "collective" effort among all the grades. Middle School designed an Ark out of the cans collected for the canned food drive while the elementary grades truly thought outside of the box by designing animals out of recyclables. It was amazing to see how imaginative the students were in creating their animals, from large giraffes and elephants to birds, serpents, and penguins. Our 7th-grade students showed off months of hard work and preparation at the Annunciation Science Fair held on February 9. These enthusiastic and talented students showcased their individual or group projects to their classmates, teachers, and judges. The students' projects, which were completed over many months, were well done, and the range of ideas surpassed our expectations. The science fair is an opportunity for students to apply the scientific method while conducting independent research on a subject of their choice. We could not be more impressed by all of their hard work! Congratulations to James O. for his 1st place winning entry titled "What plane will produce the most drag". Next up in STREAM...creating a viewer for the partial solar eclipse which will occur on Monday, April 8 starting around 10:08 a.m. The maximum eclipse can be seen around 11:20 a.m. Make sure to ask your child about this and don't forget to view it for yourself. The next solar eclipse that will be as visible as this one won't be until 2045! ACS Science Fair winner James O.
